1.The Saving Water Partnership created this list from the "MaP Premium" list available at <http://www.map-testing.com/map-search.html>. All models on the full MaP Premium list qualify for a rebate. This list is a condensed version that only includes models known to be available locally. This list is not an endorsement of any one manufacturer.

2.Dual flush models are indicated by two numbers. For example, " 0.9/1.28" indicates a dual flush model with a 0.9 gallon low-volume flush and a 1.28 gallon high-volume flush. The average of the two flush volumes is 1.1 gpf or less.

3.Rough-in measurement indicates the distance of the center of the toilet's flange or bolts from the wall (not the baseboard). Some toilets have drains out the back of the toilet, indicated by "back outlet" or "wall-mount".

**Note to Manufacturers:** If you believe your Premium WaterSense toilets are available locally in the Saving Water Partnership service area but are not on this list, please call (206) 615-1282 to be added.

The following information is from the **MaP Premium website (www.map-testing.com)** "Compiling this listing is a service of Gauley Associates, Ltd. and Koeller and Company. All of the fixtures on this list are reported as certified by an accredited certification body (CB) to meet the requirements of the U.S. EPA WaterSense® specification for High Efficiency Toilets. Information for this listing has been obtained from the WaterSense® website, CB websites, and from test reports provided by recognized laboratories participating in the WaterSense® program and believed to be entirely reliable. This listing is NOT the official list of the U.S. EPA's WaterSense® Program. For a full description of WaterSense, go to: <http://www.epa.gov/watersense>. The information presented in this table has been gathered from sources deemed to be reliable (including the WaterSense® Program). However, neither the authors nor the organizations posting this listing on their websites make any guarantee as to its correctness, accuracy, completeness, or current status. Readers are encouraged to perform their own research at the WaterSense® website (noted above), manufacturer websites, and other sources."
